After travelling across the US, UK, South Asia and the east coast of Australia, and having worked in Shanghai and Sydney, I fell in love with Tasmania - a peaceful place to settle and create. I have experience in IT roles including Services Operations, Customer Support, Business Analysis, as well as experience across the Education and E-learning industry. I am currently living in Launceston, Tasmania. I am on a 500 Student Visa (until March 2021). Whilst waiting for the approval of my 485 Post-Study Work Visa (currently in progress) a Bridging-A Visa has been granted allowing me to work full time unrestricted.

## Education

---

**The University of Tasmania – Master of Information Management and Systems**

March 2019 – December 2020

**The University of Taizhou (Eastern China) – Bachelor of Physics (Teacher Education)**

September 2008 – June 2012

## Key Attributes

---

**Interpersonal Skills:** Effectively collaborated across different business functions (product, service, and tech team) during two years of IT consulting roles with large complex global corporations in Shanghai, one year of Customer IT Support role in Australia, and volunteer work in California (USA).

**E-learning:** Experienced in E-learning having gained two years of working experience as a science teacher, one year of PASS leader (Web & Software Development) at UTAS, two years of IT Consultant roles in online learning platform italki.com (Shanghai). Familiar with learning management systems such as D2L Brightspace, PebblePad, and E-learning platforms including Udemy, Coursera, and italki.

**Initiative & Teamwork:** Started up the Virtual-study Hub project to help students to study online during the COVID-19 time; Co-founded the Multi-Cultural Club, an active University society; Delivered award-winning team projects in GovHack 2020 and UHack 2019.

## Work Experience

---
